

Exit Presentation

Lauren Davis

Areas of Growth

- Classroom Management
- Patience
- Public Speaking

Overall, my CONFIDENCE
has grown the most!

CONFIDENCE

1. Classroom Management

How it started.....

vs.

How it went!

CONFIDENCE

2. Patience

Ms. Davis used the board quite effectively, but also was able to spread the learning activity away from the front of the room. She takes care to check in with each student multiple times each day to help them overcome any obstacles. She adjusts timing and pacing of lessons effectively to compensate for the unexpected aspects of school life, and the needs of the class.

CONFIDENCE

3. Public Speaking

What if no one
agrees? What if
I say
something
silly?

VS.

I like sharing my
opinion now :)
I feel more confident
at the front of the
classroom too!

encouragement committed
emotional inclusive
positive nervous confident
dedicated fun thankful
thrilling growth
happy adapting
patient teaching
chaotic thriving learning
friendship

Portfolio

Lauren is ready to accept the responsibilities of a classroom full-time, she is dedicated to the profession and improving her practise, and will be a valued member of any staff and community. I highly recommend Lauren.

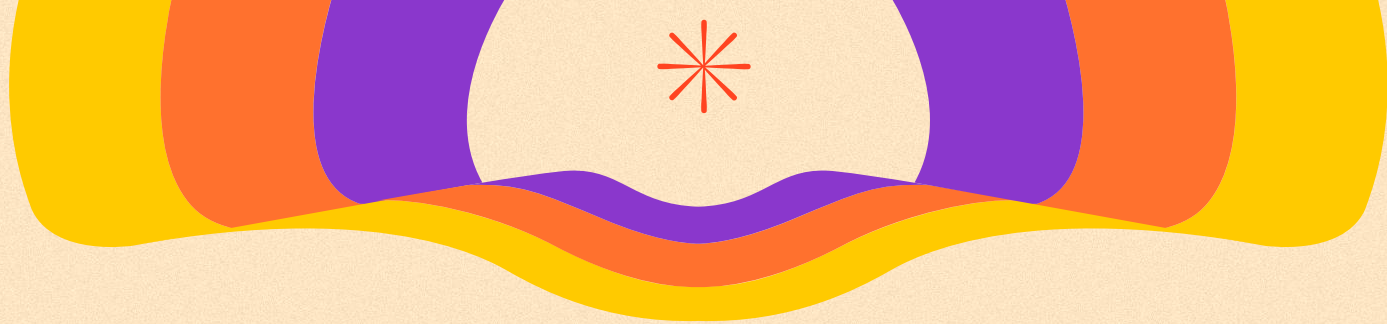

There was ample evidence of forethought and growth in Ms. Davis's practicum and she deserves commendation for the way her practice has matured over such a short time.

In case any of you are not feeling confident..

1. Think of a word that describes you that you are most proud of!
2. Once you have your word give me a thumbs up..

On 3 we are all going to say “I am _____”

Thank you!
